Temporary Accommodations

The following list of temporary housing is to provide housing options for visiting family and friends and to help students find a place to stay while they seek a permanent home. However, it is strongly encouraged that all students attempt to secure permanent housing before moving to Vancouver, as temporary housing can be costly. All prices listed are subject to change.

TRANSITIONAL HOUSING
This service is only available for students arriving prior to the start of Fall and Winter Terms.

Regent College Transitional Housing is a free service offered to incoming students who arrive at Regent College with no permanent housing arranged. The Housing Coordinator works to arrange up to 1 week of housing with a host family so that students have time to secure permanent housing when they arrive. Take note that there may be a small fee charged for accommodation, depending on the host families, and stays will not exceed one week.

Due to the fact that our transitional housing service relies entirely on volunteer host families from Regent College and the greater Christian community in Vancouver, securing a host for a student may not always be possible. Therefore, to increase your chances of being assigned an available host, it is vital that you contact the Housing Coordinator by completing a relocation request form at www.regent-college.edu/relocation by July 15 for students beginning in the Fall term, and by November 15 for Winter term. Please include the exact date and time of your arrival, details of your flight, the number of people who will be with you, as well as any special considerations such as allergies to animals. Students who request transitional housing after this date risk being forced to pay for their own temporary housing if a host family cannot be secured (see the following list of hotels, B&B’s and hostels).
