YOU WANT TO CHANGE THE WORLD

Now you know where to begin.

The Global Mission of Regent College is to cultivate intelligent, vigorous, and joyful commitment to Jesus Christ, His Church and His world.

VALUES

1. A Graduate School of Christian Studies
   As a community of Christian scholars, we believe that rigorous academic study is an expression of our love for God and that it is vital to the health and mission of the church.

2. What We Believe: Historical Evangelicalism
   We affirm the unique authority and trustworthiness of the Holy Scriptures, the supremacy of Christ, the necessity of personal repentance and faith, and the importance of bearing witness to Christ in word and deed. At the same time, we recognize the importance of holding and defending evangelical convictions graciously and reasonably.

3. Whom We Serve: The Church, the Marketplace and the Academy
   Regent College was founded for the purpose of providing graduate level theological education to lay believers. Through our core curriculum, we continue to strive to provide a fully integrated theological education to students from all backgrounds, including those arriving from careers in the church, the marketplace and the academy.

4. What We Look Like: People and Space
   The College is intentionally diverse. We value the energy and insight that come from bringing together women and men of different denominational traditions, from different ethnic and national backgrounds, and with very different vocational goals in view. Our relatively small, light-filled facility fosters personal interaction and face-to-face learning. And our location on the campus of a major university encourages us to work and think in the larger context of contemporary society and culture.

5. Prayer
   Regent College’s core vision is not so much something that we have determined ourselves as it is the gift of God, entrusted to us for the sake of the church and the world. Everything we undertake depends entirely upon God’s gracious provision.
